Pick an element from the set S.

$Pick(S) \triangleq$ CHOOSE $s \in S$: TRUE

Pick an element that is not in the set S.

$PickNone(S) \triangleq$ CHOOSE $s : s \notin S$

RECURSIVE $SetReduce(\_, \_, \_)$
$SetReduce(Op(\_, \_), S, value) \triangleq$
IF $S = \{\}$
THEN $value$
ELSE LET $s \triangleq Pick(S)$
IN $SetReduce(Op, S \setminus \{s\}, Op(s, value))$

This version will report an error if the operation applied is not commutative as required.
